AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

Claims 1-6 (*Currently Cancelled*)

Claim 7. (*Currently Amended*) A premoistened wipe for cleaning a hard surface, said premoistened wipe comprising:

- (a) a substrate; and
- (b) an antimicrobial composition comprising:
 - (i) antimicrobially effective amount of organic acid;
 - (ii) surface tension reducing amount of surfactant;
 - (iii) ~~optionally~~, suds suppressor;
 - (iv) optionally, hydrotrope;
 - (v) optionally, solvent;
 - (vi) optionally, perfume; and
 - (vii) water;

wherein said antimicrobial composition has a pH ~~of from~~ greater than about 1.6 ~~[[to]]~~ and less than about 3.0 and is loaded onto said substrate at a loading factor of at least about 2.0.

Claim 8. (*Original*) The premoistened wipe of Claim 7, wherein said organic acid is citric acid and said surfactant is nonionic surfactant.

Claim 9. (*Original*) The premoistened wipe of Claim 8, wherein said nonionic surfactant is ethoxylated alcohol.

Claim 10. (*Original*) The premoistened wipe of Claim 8, wherein suds suppressor is present at a level of from about 0.001% to about 5% by weight of said antimicrobial composition.

Appl. No. 09/719,268
Atty. Docket No. 7499
Amd. dated September 11, 2003
Reply to Office Action of January 29, 2003

Claim 11. (*Original*) The premoistened wipe of Claim 10, wherein solvent is present at a level of from about 0.5% to about 4% by weight of said antimicrobial composition.

Claim 12. (*Original*) The premoistened wipe of Claim 11, wherein said solvent is n-butoxypropoxypropanol.

Claim 13. (*Original*) The premoistened wipe of Claim 7, wherein said substrate comprises nonwoven material.

Claim 14. (*Currently Amended*) A premoistened wipe for cleaning a hard surface, said premoistened wipe comprising:

- (a) substrate comprising nonwoven material; and
- (b) antimicrobial composition comprising:
 - (i) from about 0.5% to about 20% by weight of said antimicrobial composition of citric acid;
 - (ii) from about 0.5% to about 15% by weight of said antimicrobial composition of nonionic surfactant;
 - (iii) ~~optionally~~, suds suppressor;
 - (iv) from about 1% to about 5% by weight of said antimicrobial composition of hydrotrope;
 - (v) from about 0.5% to about 6% by weight of said antimicrobial composition of solvent;
 - (vi) optionally, perfume; and
 - (vii) water;

wherein said antimicrobial composition has a pH ~~of from~~ greater than about 1.6 ~~[[to]]~~ and less than about 3.0 and is loaded onto said substrate at a loading factor of at least about 2.0.

Claim 15. (*Original*) The premoistened wipe of Claim 14, wherein said nonionic surfactant is ethoxylated alcohol; said hydrotrope is sodium cumene sulfonate; and said solvent is n-butoxypropoxypropanol.

Claim 16. (*Original*) The premoistened wipe of Claim 15, wherein suds suppressor is present at a level of from about 0.001% to about 5% by weight of said antimicrobial composition.

Claim 17. (*Currently Cancelled*)
